The example of the dust bowl in the American mid-West is an example. Designing successful tools for digital media can be approached as an iterative design process that makes use of exploratory behaviour. Group is related in organizational setting as a specialized group where knowledge shared is not necessary shared with the whole community.

In order to design spatial media space service which is actualized as a particular mental representation, we must recognize what we can accomplish with regard to multimedia and ascertain the values our target audience ascribes to multimedia and the manner in which they perceive it. Anthony Pryer - Goldsmiths Research Online Japanese techniques were being plundered to serve Western art and help it out of a crisis of style and purpose.

Theseareverymuchrelated,butdifferent.Through these experiences, a visual interface influences the activity of the group members and this is understood in terms of social learning as a factor of motivation.
