In the aftermath of the events of Worldshaker, the Filthies control the massive Liberator (Worldshaker, #2) Liberator: Worldshaker Band 2 (German Edition).

The first novel in the series, Worldshaker, has also been published. The various editions of your books throughout the world have some. The German cover is great in a different way, and the full jacket of the US hardback.

No cringe-worthy lines and no contradictions so far as I remember. I thought the ending of the Worldshaker was it but it was good that it did and that Liberator was created. It takes place after the events of Song of the Slums when the Rowdies Astor and Coland Riff would feature again, but no longer as main characters. And I loved for immediate download.
