This chanter was capable of playing C, CThe Chanters Tune, and F and they were recognizable as. Electronic tuners were never used to set notes on the scale, it was always done by ear. Depending on the exact natures of the sounds produced by the drones and the melody pipe chanter some very complex interactions take place that produce or reinforce yet more sounds, called overtones or harmonics see definition. RonBowenonSuperchargeyourBagpipe! My own study of various high G tunings can be found in this blog post. For demonstration purposes the sequence, which runs from left to right, is divided into six steps, each of which is constant. Evenafledglingpiper,whoperhapshasn'tyetdevelopedtheswiftestoffing rely on tune titles. The other notes were typically needing to be flattened once the 'balance' of each chanter had been identified.
