DeFulio A, Silverman K. More recent evidence suggests that it
is a behavioral marker of pathology Bickel et al.
A review of the literature on contingency management in the treatment of substance
use disorders. Indeed, the broad generality of excessive delay discounting
across health behaviors and associated conditions is the basis
for its designation as a trans-disease process Bickel et al.
Consider the consequences when we add to this assumption two
other aspects of contemporary science.
That continuation of cigarette smoking in combination with the time-lagged
discounting 1 provides novel conceptual systems to inform
scientific understanding of health behaviors, 2 translates
scientific understanding into practical and effective
behavior-change interventions, 3 leverages varied aspects of
behavior change beyond increases or decreases in frequency, 4
recognizes and exploits trans-disease processes and
interventions, and 5 leverages technology in efforts to
maximize efficacy, cost effectiveness, and reach.
