Set up a giveaway. Plantinga tends to think it not very important for most believers while Quinn estimates its value quite a bit higher. A substantial introduction sketches the developments of the last half-century, while also describing the 'ethics of belief' debate in epistemology and showing how it connects to explicitly religious concerns and to the topics of the individual contributions.

This article has no associated abstract. Essays in Philosophy of Religion, necessary moral truths if there are any may be created by God's believing them, and given the intimate connection between God's beliefs and his will, we might suppose that the status of such propositions as moral truths would be mediated to them by God's willing. He notes that if he seemed to be subject to a divine command that conflicted with an indefeasible moral obligation, he would, unlike Abraham, invariably conclude that the apparent command was not divine. If so, says Quinn, Rachels would be confusing placing moral conditions on one's obedience to God with placing epistemic conditions on one's judgment about whether a purported command of God actually was a command.

The Theological Perspective of a Geneticist. For example, Wolterstorff responds that the theist can deny that God could command just anything, since the idea of God is that of a morally perfect. But even with the proper Christian adjustments of the virtue concepts, Quinn thinks the Christian ethicist should resist Aristotelian ethics:.
