The training is designed to encourage the development of new leaders through: A more committed team:

They emphasize growth and goodness. They can learn the skill of helping people. Coaching of employees should not be limited to technical skills, but rather embrace a more comprehensive perspective, including personal and social skills, greater awareness and management of emotions, as well as improving interpersonal competencies 6. It is also a fact that coaching frequently takes place between peers and even upwards on occasion, with some enlightened bosses happy to be coached by their team members.

His areas of expertise are: It is the coaching and development role of manager in a coaching style is ultimately about benefits to the team, the individual team members and the Manager, and could even be seen as enlightened self interest as an approach.
